

Food Safety Policy

Our industries for the refinement and production of plant oil and its derivatives, located in Belém/PA and Limeira/SP, aiming to meet food safety requirements, undertakes to:

- Carry out and ensure the integrity of the entire productive cycle, from the receipt of inputs, packaging, and raw materials until the shipping or transfer of final products, through practices and measures that aim to prevent deviations which may affect the final products in terms of food safety;
- Be in compliance with and ensure the continuous improvement of the efficiency in all activities, based on continuous evaluation of legislation, standards, statutes, contracts, client requirements and other subscribed commitments, applicable to activities and products;
- Provide the required competence, awareness and communication to all that work for Agropalma Belém and Agropalma Limeira or act on their behalf, for proper performance of activities and attaining objectives, in compliance with the guidelines of this policy
