## Alô Agropalma

Alô Agropalma is the mechanism that allows us to hear from anyone in our value chain about any non-compliance concerns in our operations.

We encourage our employees and interested parties to speak out if they notice any incident of harassment, discrimination, abuse of power, intimidation, fraud, corruption or conflict of interest. This includes any behavior that goes against our Conduct of Conduct and our Social and Environmental Responsibility Policy.

You can help us by reporting any non-compliance issues, through our Alô Agropalma channel. Operated with independent flow, offers anonymity if you wish.
